Test Plan Title	Login and Add User in web belajar-bareng.onrender.com
Prepared By	Ghifari Ezra Ramadhan, QA Analyst
Date	08/03/2026

1. Introduction

The objective of this test plan is to validate the functionality, security, and reliability of the Login and Add User features on the belajar-bareng.onrender.com web application prior to its release.

2. Scope of Testing

- In Scope:
 - Login
 - Add Users
- Out of Scope:
 - Update
 - Delete
 - Checkout

3. Test Objectives

- Validate functional correctness, including proper system navigation and accurate error messages.
- Ensure cross-browser compatibility across different platforms.
- Assess usability and system reliability for a seamless user experience.
- Verify the security of the login authentication and user data protection.
- Validate the user interface (UI) responsiveness and adaptability to ensure all elements render correctly and maintain usability across various screen sizes and resolutions.

4. Testing Approach

- Methodologies: Manual Testing (Black-Box Testing)
- Types of Testing:
 - Functional
 - Error Message
 - Navigasi System
 - Non-Functional
 - Usability and Reliability Testing
 - Compatibility Testing
 - Security Testing
- Tools Used: -

5. Test Schedule

Phase	Start Date	End Date
Test Planning	08/03	08/04
Test Case Design	08/05	08/07
Test Execution	08/08	08/12
Bug Fix Verification	08/13	08/15
Test Completion	08/16	08/17

6. Test Environment

- Hardware/Software:
 - Windows 11, Chrome 151.0.7922.72 (Official Build) (64-bit)
 - Iphone 11, Safari 26.6, Chrome 151.0.7922.57
- Staging URL or App Version: <https://belajar-bareng.onrender.com/>
- Test Data Sources: -

7. Resources & Responsibilities

Role	Name	Responsibilities
QA Analyst	Ghifari Ezra Ramadhan	Designing a Test Plan, Build Test Case,

		Execution Manual Test and Notes Bug
Dev Support	M Ridwan K	Bug triage, environment setup support

8. Risks & Mitigation

Risk	Mitigation Strategy
Tight release schedule	Prioritize critical test cases

9. Test Deliverables

- Test Plan (This Document)
- Test Case & Bug Report:  Test Case & Bug Report - User Managemenet

10. Entry & Exit Criteria

- Entry: Code complete, environment stable, test cases reviewed
- Exit: 95% test case pass rate, no critical/severe open bugs
